

MJ Staffing Handyman Services

What do we do?

We provide commercial and residential handyman services to clients in several states.

Do I qualify to register as a handyman contractor with your company?

All handyman contractors must have at least one year of experience and are authorized to work in the United States. You must be at least 18 years of age.

How can I start receiving handyman contracts through your staffing company?

Once you complete the quick application and registration process, you will receive access to contracts in your area with the services you selected to have at least one year of experience.

How can I earn revenue as a handyman contractor with your staffing company?

Our pay rates are determined by the size, length, and location of each job. Our contractors may be paid hourly or at a flat rate.

How will I know if a job is available in my area?

Our marketing and advertising team will target several cities across the United States daily. Our application will allow you to dictate how far you are willing to travel for work. When our company receives a service request in your local area an email will be sent out. An immediate response is required to secure the job.

The email will include the following details:

- Job description
- Job location
- Pay Rate
- Job start date
- Estimated time

If I am interested in the service request how can I secure the job?

When you receive a service request by email immediate action will be required. You will need to contact our office and ask for Lance. Lance will provide you with any additional details needed to start the job, and you'll also receive a contract to sign and return before heading to the customer.

How will I get paid for the job?

All contractors will have three payment options:

1. Cash app payments are received two business days after the job is completed
2. Checks are mailed out 24 hours after the job is completed.
3. Direct deposits are issued on the 15th and last day of each month. If the check day falls on the weekend or holiday, checks are disbursed on Friday before.

Do I need a license or certification?

In Florida, for example, a handyman doesn't need a license, but if you are going to perform certain types of work such as construction, plumbing or electrical work, you will need a contractor's license. If you have a specialty license please upload it along with your application.

How do I start the registration process?

You can start by completing the application then wait for a service request email
